MEMORANDUM FOR FILE

SUBJECT: Navigation Systems

1. Cdr. George W. HOOVER, ONR, after reviewing Mr. ROSENBERG's proposal for the investigation of navigation systems compatible to our use, stated that this information is available and that ONR would not contract with Mr. ROSENBERG for it.

2. Cdr. HOOVER said that he would obtain this information for us if we would furnish him with our basic specifications. The following specifications and questions were furnished ONR this date:

Specs:

- a. Weight: approximately 150# or less for light-weight aircraft use.
- b. Altitude: tree top.
- c. Detectability: passive if possible or minimum detectability.
- d. Information required: current position and range ~~on~~ bearing to target allowing for ~~deep~~ legs to be cranked *dog*

Questions:

Weight, size, range, error, availability, cost, manufacturer, serviceability, reliability.

3. Cdr. HOOVER will contact us when this information is available. However, his clearance should be through prior to this time and we can establish direct liaison with him.
